2022 ANNUAL REPORT

Chairman's Letter

Dear Shareholders

At the outset, I extend, on my behalf and on behalf of the Board of Directors & Promoters, warm greetings to you all.

The year 2022 is significant in the Indian social impact ecosystem with the notification of the Social Stock Exchange. This can positively impact more than 34 lakh NGOs and for-profit entities in the social impact ecosystem. However, to accomplish these goals, there is a strong need for digitalization and inclusion of a collaborative approach.

ESG and CSR have also had a large impact on how organizations function and take major decisions in the modern world. Since the pandemic, there has been a rise in interest in ESG investing, with social equality and climate change taking center stage. The need for digitalization rises again to improve the implementation of ESG frameworks.

Equippp Social Impact Technologies Ltd aims to bridge this gap and democratize the social impact. This company spent significant time and effort on technology, innovation and IP building in the last year. These IPs could help bring in substantial and sustainable revenue and establish EQUIPPP as a unique technology player in the social impact ecosystem. I thank the Directors and the management for their cooperation and look forward to the exciting journey ahead.

I would like to conclude, by extending my heartiest wishes to the esteemed shareholders, management and directors of EQUIPPP, to be blessed with a healthy and happy New Year, 2023!

Thank You,
Dr Narendra Mairpady

2022 ANNUAL REPORT

Managing Director's Letter

Dear Shareholders

This has been a year of mixed fortunes for Equippp Social Impact Technologies Ltd.

Happy to first share the good news that since the last AGM, we have made significant progress with regard to building and strengthening IPs.

In addition, the following tasks have been accomplished:

1. Completion of Due Diligence
2. Hiring one of the Big Four Consulting Firms, for advising on strategy

While we could accomplish some of the tasks we set upon ourselves, many of the ambitious plans for the year are still work-in-progress, due to the fact that compliance had consumed most of our time and energy; however, the learning from this experience would keep us in good stead during the coming years. We have been evaluating various options, to take this Company to the next level; all possible efforts are directed towards positioning EQUIPPP as a niche Technology Player in the Social Impact space.

Looking forward to making good progress on the business front during the next Financial Year and share the greater good news, going forward.

Thank You,
Mahesh Ramachandran

CORPORATE GOVERNANCE

The compliance with the corporate governance provisions as specified in regulations 17, 17A, 18, 19, 20, 21, 22, 23, 24, 24A, 25, 26, 27 and clauses (b) to (i) and (t) of sub-regulation (2) of regulation 46 and para C, D and E of Schedule V shall not apply, in respect of -

- (a) A listed entity having paid up equity share capital not exceeding rupees ten crore and net worth not exceeding rupees twenty five crore, as on the last day of the previous financial year

Since the net worth of the company as on March 31st, 2022, continues to be less than Rs.25 Crores, the above mentioned provisions are not applicable to the Company. However, out of abundant caution when the Company had furnished the Corporate Governance Report to the NSE & BSE for the quarters ended on 30/06/2022 and on 30/09/2022, the NSE had held that the Company had to comply with the CG provisions and imposed penalties for non-compliance/delayed compliance under Listing Agreements and SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015.

The Company is contesting the aforesaid issue of applicability of provisions relating to Corporate Governance.

Though, the provisions of LODR are not applicable to the Company, the Company has decided to implement certain of Corporate Governance provisions as a good practice, on a best endeavor basis. And enclosed the Corporate Governance report as **Annexure–2** to this report.

BOARD COMMITTEES

As mentioned above in the corporate governance practices, though the provisions related to the committees are not applicable for the company, in order to implement the good governance, the company had formed the following committees on 29.05.2022 with appropriate combination of independent directors and Non-Executive Directors.

FOR THE FINANCIAL YEAR ENDED 31st MARCH, 2022

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,

The Members,

EQUIPPP SOCIAL IMPACT TECHNOLOGIES LIMITED

(Previously known as Proseed India Limited)

CIN: L72100TG2002PLC039113

8th Floor, Western Pearl Building,

Hitech City Road, Kondapur,

Hyderabad-500081.

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by EQUIPPP SOCIAL IMPACT TECHNOLOGIES LIMITED (hereinafter called “the Company”).

Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing my opinion thereon.

Based on my verification of the EQUIPPP SOCIAL IMPACT TECHNOLOGIES LIMITED books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, I hereby report that in my opinion, the company has, during the audit period covering the financial year ended on 31st March 2022, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

1. I have examined the books, papers, minute books, forms and returns filed and other records maintained by EQUIPPP SOCIAL IMPACT TECHNOLOGIES LIMITED for the financial year ended on 31st March 2022, according to the provisions of:

- 1.1. The Companies Act, 2013 (the Act) and the rules made thereunder;
- 1.2. The Securities Contracts (Regulation) Act, 1956 (‘SCRA’) and the rules made thereunder;
- 1.3. The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;

1.4. Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings;

1.5. The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act'):-

- 1.5.1. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
- 1.5.2. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
- 1.5.3. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018

ANNEXURE 3

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

a) Industry structure and developments

FY2022 was a phenomenal year for India's technology business, with revenue increasing by 15.5% (the highest rate ever) to \$227 billion. The industry's winning formula was a combination of digital and innovation. Platformization and SaaS were essential in speeding tech adoption, and it was also the year of the start-ups when tech start-ups leapfrogged into scale-up mode.

The Indian SaaS market is estimated to account for almost 7 to 10% of the global SaaS industry by 2020, up from 2-4% currently. In 2018, there were 2000+ SAAS companies in India, compared to 1000+ in 2017. After the United States and China, India has the third-largest SAAS ecosystem. SAAS revenues in India are already growing at a 20% yearly rate. By 2030, the Indian Software as a Service (SaaS) market is expected to be worth \$50 billion.

Technology was the panacea for both global and Indian end-user enterprises, allowing them to not only keep the lights on but also pivot their business models to online mode, adapt products and services to emerging market forces and customer needs, and enable collaboration in a distributed work model.

Another significant achievement was the industry's total direct workforce crossing 5 million, with the highest-ever net addition of 445K. As a result of the industry's "people first, employee-centric" attitude, tech businesses quickly adapted to Hybrid work models and scaled up the industry's digital capacity/capability-building projects.

Today, digital revenue accounts for 30-32% of overall revenue, with one in every three employees being digitally proficient, cementing India's status as the Global Digital Talent Nation.

These factors have increased India's share of the global sourcing market to 59%, demonstrating the country's new IT value offer. The Indian IT sector has been driving growth for the previous decade and more, and it has the capacity to continue doing so in the next few years if shortcomings and problems are addressed.

(b) Opportunities and Threats.

EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD is an organization that spans multiple avenues as such. It seeks to make the world a better place by enhancing the efficiency of multiple industries through a collaborative platform and cutting-edge technology. EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD'S platforms offer straightforward yet effective solutions to take control of your projects and enhance the overall user experience. EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD aims to address the complexity and geographical barriers that exist in cross-sector partnerships. The Public Private Partnerships (PPP) mechanism provides for the use of a very diverse set of tools for the implementation of PPP projects, including digital instruments. It is necessary to consider the use of digital tools that complement traditional ones due to the limited use of existing tools at various stages of PPP projects and the growing need for additional resources. By integrating private investors, the PPP method strives to accomplish major infrastructure and social development objectives. The instruments used to organize and finance projects are the deciding variables in the implementation of PPP initiatives. It was discovered that standard approaches and instruments have limits.

In light of this, EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD investigated the use of digital instruments in the implementation of PPP projects.

EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD believes that digital platforms, particularly integrated interaction platforms, have the potential to be a new tool for addressing the limitations of existing traditional and digital tools. We believe that using platform solutions and different types of platforms in the implementation of PPP projects will aid in solving the problem of organizing project participants' interactions and satisfying the interests of a significant number of stakeholders, or those interested in their realization.

According to several studies, there are two important directions for PPP digitization. The first is the active use of digital financial instruments to attract more investment in PPP projects; the second is the building of a digital environment for PPP participants and other stakeholders to interact in PPP projects. This environment can be aided by the development of specific digital PPP platforms. This will not only lower PPP transaction costs, but will also allow for the long-term viability and dynamics of local and global infrastructure development by taking into account the interests of a diverse range of stakeholders.

The very concept of a digital platform goes beyond technology alone. It is fundamentally important here to determine the goals and needs of the parties involved, to ensure the implementation of a set of organizational and technical measures to meet these needs in the digital platform environment. The developed digital platforms can be an important factor in global economic competitiveness. Digital platforms can become a significant strategic resource in the sphere of public administration. Here EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD brings in its technological expertise. Technology has been the highest-growing sector in the world over the past few decades and it is understandably so.

EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD also aims to target the social sector with its tech offerings that are distinctly defined for the social sector as such. Although social sector financing in India has increased by around 12% each year over the last five years, from approximately INR 10 lakh Cr. to approximately INR 17.5 lakh Cr., gaps persist. According to NITI Aayog, India has to invest around 13% of its GDP in social causes by 2030 to meet its United Nations (UN) Sustainable Development Goals (SDG) objectives.

Year over year, private domestic giving has increased at a moderate rate of 8% to 10%. Corporate social responsibility, family philanthropy, and retail giving together account for around 84% of the total private philanthropic wealth in India. CSR has increased at a 15% annual rate over the last seven years, with its share of total private giving increasing from around 12% in the fiscal year 2015 to 23% in 2021, led by the 2% mandate. CSR contributions are predicted to expand at a 19% annual rate, with a share of around 32% of total private giving by FY 2026, owing to significant economic growth, formalization, and more corporations coming under its umbrella. The CSR space and ESG considerations space have grown exponentially over the past decade and EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD aims to take up the challenge of creating a platform that addresses all issues faced by players in the CSR and ESG space and make all areas from investing to impact assessment considerably more convenient.

According to an RBI examination of 2017-18 data from 221 municipal authorities across the country, nearly half of the entities were under extreme fiscal stress, owing to their restricted ability to generate their own resources. Only a few prominent Indian municipal authorities have used bonds as a source of finance. Bengaluru MC floated municipal bonds for the first time in India in 1997, followed by Ahmedabad MC in 1998. Since then, the Indian municipal bond market witnessed a healthy growth until the mid-2000s, with nine MCs raising around Rs 1,200 crore. Municipal bond issuances came to a sudden halt after 2005 with the launch of Jawaharlal Nehru National Urban Renewal Mission envisaging total investment of about Rs 1 lakh crore available to municipal corporations in the form of grants from the Centre.

In the recent period, there has been a resurgence of municipal bond issuances in India, with nine MCs raising around Rs 3,840 crore during 2017-21. EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD'S platforms address these issues at their root and help such authorities also gain access to funds via its tech offerings.

The Securities & Exchange Board of India (SEBI) approved the creation of the Social Stock Exchange through which social enterprises (SE) in the country will be able to get listed and raise funds. Social Stock Exchange is a novel concept in the country and such a stock exchange is meant to serve private and non-profit sector providers by channeling greater capital to them. SSE will not only help NGOs raise capital but will also ensure that there are enough checks and balances when it comes to utilization of charity done by people at large. Out of estimated 34 lakh NGOs in India, A mere 1% of these NGOs are expected to get listed on the exchange which is around 34,000 NGOs. This will require nearly 3,400 social auditors who will be entrusted with the task of preparing performance evaluation of the listed NGOs. EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD aims to service the ecosystem of social stock exchange through its IP offerings including book building platforms and impact assessment marketplace.

(c) Segment wise performance

EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD is a technology-driven company, providing various tech offerings, solutions, IPs, and services, predominantly to the players in social impact like governments, PPPs, CSRs, ESG, SIBs (Social Impact Bonds), NGOs and NPOs. IT Consulting enabled business is also one of our major offerings. Its offerings are built on cutting edge technologies such as Blockchain, Cloud, AI/ML etc.

The EquiPPP platform and PaaS solution are running vibrantly and are continuously being upgraded. Latest versions with the updated offerings will be launched in the upcoming quarters.

EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD has various IP-related solutions, and one of its IP's have evolved into a full-fledged product to support the entire ecosystem of social impact. Its latest offering is EquiPPP Insights Exchange (ix), a marketplace for insights and impact assessments of social value projects.

(d) Outlook, risks and concerns

Technology spending can vary markedly from quarter to quarter. Externally driven factors, including economic and political conditions, changes in regulatory environments, as well as technological and product innovation, can have a significant impact on EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD.

Using advanced analytical tools and approaches, EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD aims to identify the risks associated and mitigate the same.

(f) Internal control systems and their adequacy

Internal Financial Controls have been initiated by the company for addressing the financial and financial reporting risks. As the company is just beginning its operations and started incurring expenses, the processes and the systems are being implemented and with the appointment of the full time experienced CFO, the same are being reviewed, updated and changed to address the changing business environment and to be in compliance with regulatory changes. The Control Systems provide a reasonable assurance of recording the transactions of its operations in all material aspects and of providing protection against inappropriate or misuse of the Company's assets. The Accounting software system which the Company had purchased and implemented is helping in further strengthening the internal control systems that are in place.

(g) Discussion on financial performance with respect to operational performance.

During this past year, The Company was in the process of transition and was engaged in efforts related to name change, obtaining a new PAN Card, TAN ID and GST registration etc. after the change in the name of the Company which took substantial time.

The company has been focusing on developing tech offerings, solutions, IPs, and services, predominantly aiming to serve customers/players involved with social impact like Governments, PPPs, CSRs, ESG, SIBs (Social Impact Bonds), NGOs and NPOs.

As of March 31st, 2022, The Company has not started any revenue and all its efforts were focused on building the IPs. However, the company has been making attempts for the full implementation of the Hon'ble NCLT order, accordingly the adjustments have been made to the Debtors Balances and Equity share to adhere and comply with the Hon'ble NCLT order.

(h) Material developments in the Human Resources / Industrial Relations front, including the number of people employed.

EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD'S culture and vision are in line with its mission to attract and retain the best talent. The Company is progressively moving forward in the right direction and is putting efforts for identification of the right talent to join the company.

Since the company just came out of the CIRP and is in the transition phase, the young and agile team of EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD has well dwelled, discussed and identified remote agencies on adhoc basis to serve customers through its engagements and platforms. Seeds to build a strong ecosystem are sown and it will reap its benefits in due course of time. EQUIPPP SOCIAL IMPACT TECHNOLOGIES LTD entered into a strategic agreement with one of the design and technology firms and created a network of retainers and empanelled members. A network of Social Tech Professionals is being built with an aim to have a presence across all the end mile touchpoints of India and this has a huge potential to create employment and enable new revenue streams in upcoming quarters.

(j) Ratios

The company has just started incurring its initial expenses after opening of the bank account, mandatory information that needs to be shared has been attached. Financial Ratios are not applicable as the revenues are yet to start. However, to maintain transparency, they are shared below.

INDEPENDENT AUDITOR'S REPORT

To
The Members of
EQUIPPP SOCIAL IMPACT TECHNOLOGIES LIMITED
(Formerly PROSEED INDIA LIMITED)
Report on the Audit of the Standalone Financial Statements

OPINION

We have audited the standalone Ind AS financial statements of EQUIPPP SOCIAL IMPACT TECHNOLOGIES LIMITED (Formerly PROSEED INDIA LIMITED) ("the Company"), which comprise the Balance Sheet as at 31st March 2022, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity for the year then ended and a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the state of affairs (financial position) of the Company as at March 31st, 2022 and its loss (Financial Performance including other comprehensive income), its cashflows and the changes in equity for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the standalone IND AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Ind AS financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. Except for the matter described in the material uncertainty related to going concern section, no other KAM needs to be addressed in our report.

OTHER INFORMATION

The companies management and Board of Directors are responsible for the other information. The other information comprises the information included in the Companies Annual Report, but does not include the Financial Statements and our auditors report there on. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with the audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report the fact. We have nothing to report in this regard.

MANAGEMENT'S RESPONSIBILITY FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the state of affairs (financial position), Profit or loss (financial performance including other Comprehensive Income), cash flows and changes in equity and of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Sec 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities, selection and application of appropriate accounting policies, making judgments and estimates that are reasonable and prudent and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITORS RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE IND AS FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the Standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our
5. Evaluate the overall presentation, structure and content of the Standalone Ind AS financial statements, including the disclosures, and whether the Standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Ind AS financial statements for the financial year ended March 31st, 2022 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

ANNEXURE “B” to the Independent Auditors Report of even date on the Financial Statements of EQUIPPP SOCIAL IMPACT TECHNOLOGIES LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of EQUIPPP SOCIAL IMPACT TECHNOLOGIES (“the Company”) as of March 31st, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

OPINION

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2022, based on the internal financial controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The Company offers high degree of skills, IPs and domain expertise across in areas like Digital Transformation, Enterprise Solutions, Tech platforms for ESG, CSR and Public Private Partnership (PPP) projects.

BASIS OF PREPARATION OF FINANCIAL STATEMENTS

A) COMPLIANCE WITH IND AS

The Financial Statements comply in all material respects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) (to the extent notified) and guidelines issued by the Securities and Exchange Board of India (SEBI), read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and the relevant amendment rules issued thereafter. The presentation of the Financial Statements is based on Ind AS Schedule III of the Companies Act, 2013.

B) USE OF ESTIMATES

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and judgements that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of impairment of investments, useful lives of property, plant and equipment, valuation of deferred tax assets, provisions and contingent liabilities and fair value measurement of financial instruments have been discussed below. Key source of estimation of uncertainty in respect of revenue recognition and employee benefits have been discussed in their respective policies.

C) BASIS OF MEASUREMENT

The financial statements have been prepared on the historical cost basis except certain financial assets and liabilities that are measured at fair value or amortised cost.

D) FUNCTIONAL CURRENCY

The financial statements are presented in Indian Rupees, which is the functional currency of the Company. Functional currency of an entity is the currency of the primary economic environment in which the entity operates. All amounts are in Indian Rupees INR except share data, unless otherwise stated.

E) OPERATING CYCLE

All the assets and liabilities have been classified as current or non-current as per the Company’s normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013.

I. ASSETS

An asset is classified as current when it satisfies any of the following criteria:

- i. it is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle;
- ii. it is held primarily for the purpose of being traded;
- iii. it is expected to be realised within 12 months after the reporting date; or
- iv. it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.

II. LIABILITIES

A liability is classified as current when it satisfies any of the following criteria:

- i. it is expected to be settled in the company's normal operating cycle;
- ii. it is held primarily for the purpose of being traded;
- iii. it is due to be settled within 12 months after the reporting date; or
- iv. the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities. All other liabilities are classified as non-current.

F) CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, which are described in note 3, the management of the Company are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the areas of estimation uncertainty and critical judgements that the management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements:

PROVISION AND CONTINGENT LIABILITY

On an ongoing basis, Company reviews pending cases, claims by third parties and other contingencies. For contingent losses that are considered probable, an estimated loss is recorded as an accrual in financial statements. Loss Contingencies that are considered possible are not provided for but disclosed as Contingent liabilities in the financial statements. Contingencies the likelihood of which is remote are not disclosed in the financial statements. Gain contingencies are not recognized until the contingency has been resolved and amounts are received or receivable.

USEFUL LIVES OF DEPRECIABLE ASSETS

Management reviews the useful lives of depreciable assets at each reporting. As at March 31st, 2021 management assessed that the useful lives represent the expected utility of the assets to the Company. Further, there is no significant change in the useful lives as compared to previous year.

G) PROPERTY, PLANT AND EQUIPMENT AND INTANGIBLE ASSETS

I. TANGIBLE ASSET AND CAPITAL WORK-IN-PROGRESS

Tangible assets are stated at cost, less accumulated depreciation and impairment, if any. Direct costs are capitalized until such assets are ready for use. Capital work-in-progress comprises the cost of fixed asset that are not yet ready for their intended use at the reporting date.

Property, plant & equipment is eliminated from the financial statements on disposal or when no further benefit is expected from its use and disposal. Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss. Cost of the tangible assets not ready for their intended use at the Balance Sheet date together with all related expenses are shown as Capital Work-in-Progress.

II. INTANGIBLE ASSET

Intangible assets are recorded at the consideration paid for acquisition of such asset under carried at cost less accumulated amortization and impairment.

III. DEPRECIATION AND AMORTIZATION

Depreciation and amortization for the year is recognized in the Statement of Profit and Loss. Depreciation on Property, Office Equipment are provided on straight line method over the useful lives of assets, at the rates and in the manner specified in Part C of Schedule II of the Act. Freehold land is not depreciated.

H) INVESTMENTS

Investments that are readily realizable and intended to be held for not more than a year are classified as current investments. All other investments are classified as non-current investments. Noncurrent Investments are carried at cost less diminution in value other than temporary diminution determined separately for each individual investment. Current investments are carried at the lower of cost and fair value. The comparison of cost and fair value is done separately in respect of each category of investment.

I) MEASUREMENT OF FAIR VALUES

Number of Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

I. SIGNIFICANT ACCOUNT POLICES

A) REVENUE RECOGNITION

Revenue is recognised to the extent it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

i. Sales are recognized on transfer of significant risks and rewards of ownership of the goods to the buyer as per the terms of contract and no uncertainty exists regarding the amount of consideration that will be derived from sales of goods. It also includes goods and services tax and price variation based on the contractual agreement. It is measured at fair value of the consideration received.

ii. Income from services is recognised as they are rendered, based on agreement/arrangement with the concerned customers.

iii. Dividend income is accounted for when the right to receive the income is established.

B) PROVISION FOR CURRENT AND DEFERRED TAX:

Current tax is measured on the basis of estimated taxable income for the current accounting period in accordance with the applicable tax rates and the provisions of the Income-tax Act, 1961, and the rules framed there under.

Deferred tax is recognized using the Balance Sheet approach on the temporary differences between the carrying amounts of assets and liabilities in the financial statements and the amounts used for taxation purposes. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date. Deferred tax assets and liabilities are offset, if there is a legally enforceable right to offset current tax liabilities and assets, and these relate to income taxes levied by the same tax authority and are intended to settle current tax liabilities, and assets on a net basis or such tax assets and liabilities will be realized simultaneously.

In the event of unabsorbed depreciation or carry forward of losses under tax laws, deferred tax assets are recognized to the extent that it is probable that sufficient future taxable income will be available to realize such assets.

A deferred tax asset is recognized to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

Current and deferred tax are recognized in the statement of profit and loss, except when the same relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax relating to such items are also recognized in other comprehensive income or directly in equity respectively.

Income tax expense consists of current and deferred tax. Income tax expense is recognized in the income statement except to the extent that it relates to items recognized directly in equity, in which case it is recognized in equity.

C) EARNINGS PER SHARE

The basic EPS is computed by dividing the profit after tax for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

For the purpose of calculating diluted EPS, profit after tax for the year attributable to the equity shareholders and the weighted average number of equity shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

D) LEASES

I) FINANCE LEASE: AS A LESSEE:

Leases, where substantially all the risks and benefits incidental to ownership of the leased item are transferred to the Lessee, are classified as finance lease. The assets acquired under finance lease are capitalised at lower of fair value and present value of the minimum lease payments at the inception of the lease and disclosed as leased assets. Such assets are amortised over the period of lease or estimated life of such asset, whichever is lower. Lease payments are apportioned between the finance charges and reduction of the lease liability based on implicit rate of return. Lease management fees, lease charges and other initial direct costs have been capitalised.

II). OPERATING LEASE: AS A LESSEE:

Leases, where significant portion of the risks and rewards of ownership are retained by the lessor, are classified as operating leases and lease rentals thereon are charged to the Statement of Profit and Loss on a straight-line basis over the lease term.

E) FOREIGN CURRENCIES

In preparing the financial statements of the Company, transactions in currencies other than the company's functional currency (foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

F) PROPERTY, PLANT AND EQUIPMENT

TANGIBLE ASSET AND CAPITAL WORK-IN-PROGRESS

Tangible assets are stated at cost, less accumulated depreciation and impairment, if any. Direct costs are capitalized until such assets are ready for use. Capital work-in-progress comprises the cost of fixed asset that are not yet ready for their intended use at the reporting date.

Property, plant & equipment is eliminated from the financial statements on disposal or when no further benefit is expected from its use and disposal. Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss. Cost of the tangible assets not ready for their intended use at the Balance Sheet date together with all related expenses are shown as Capital Work-in-Progress.

SUBSEQUENT COSTS

Subsequent costs are included in the asset's carrying amount or recognised as separate assets, as appropriate, only when it is probable that the future economic benefits associated with expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to Statement of Profit and Loss at the time of incurrence.

G) DEPRECIATION

Depreciation and amortization for the year is recognized in the Statement of Profit and Loss. Depreciation on Property, Office Equipment are provided on straight line method over the useful lives of assets, at the rates and in the manner specified in Part C of Schedule II of the Act. Freehold land is not depreciated.

Depreciation on additions is provided on a pro-rata basis from the month of installation or acquisition and in case of Projects from the date of commencement of commercial production. Depreciation on deductions/disposals is provided on a pro-rata basis up to the date of deduction/disposal.

H) INTANGIBLE ASSETS

Intangible assets are stated at cost less accumulated amortization and impairment. Intangible assets are amortized over their respective estimated useful lives on a straight-line basis, from the date that they are available for use.

AMORTISATION

The estimated useful life of an identifiable intangible asset is based on a number of factors including the effects of obsolescence, demand, competition and other economic factors (such as the stability of the industry and known technological advances) and the level of maintenance expenditures required to obtain the expected future cash flows from the asset. Computer software is amortised on straight line basis over a period of Five years.

I) CASH AND CASH EQUIVALENTS

Cash and cash equivalents in the Balance Sheet comprise cash at bank and in hand and short-term deposits with banks that are readily convertible into cash which are subject to insignificant risk of changes in value and are held for the purpose of meeting short-term cash commitments.

J) CASH FLOW STATEMENT

Cash flows are reported using the indirect method, whereby profit or loss before tax is adjusted for the effects of transactions of a non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

K) EMPLOYEE BENEFITS

I. SHORT-TERM EMPLOYEE BENEFITS:

Short-term employee benefits are recognised as an expense on accrual basis.

II. DEFINED CONTRIBUTION PLAN:

Contribution payable to recognised provident fund and approved superannuation scheme, which are substantially defined contribution plans, is recognised as expense in the Statement of Profit and Loss, as they are incurred.

The provident fund contribution as specified under the law is paid to the Provident Fund to the Regional Provident Fund Commissioner.

III. DEFINED BENEFIT PLAN:

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/ termination/resignation is the employees last drawn basic salary per month computed proportionately for 15 days salary multiplied for the number of completed years of service. The gratuity plan is a funded plan and Company makes annual contributions to the Group Gratuity cum Life Assurance Schemes administered by the LIC of India, a funded defined The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation for gratuity were carried out as at March 31, 2019. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

L) PROVISIONS

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability.

Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non- occurrence of one or more uncertain future events not wholly within the control of the Company.

Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognized in the financial statements since this may result in the recognition of income that may never be realized. However, when the realization of income is virtually certain, then the related asset is not a contingent asset and is recognized.

L) PROVISIONS

I. RECOGNITION AND INITIAL RECOGNITION

The Company recognizes financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are recognized at fair value on initial recognition, except for trade receivables which are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issues of financial assets and financial liabilities that are not at fair value through profit or loss, are added to the fair value on initial recognition.

A financial asset or financial liability is initially measured at fair value plus, for an item not at fair value through profit and loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue.

II. Classification and Subsequent measurement

FINANCIAL ASSETS

On initial recognition, a financial asset is classified as measured at

- amortised cost;
- FVTPL

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

1. The asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
2. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

All financial assets not classified as measured at amortised cost as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

FINANCIAL ASSETS: BUSINESS MODEL ASSESSMENT

The Company makes an assessment of the objective of the business model in which a financial asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

1. The stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realising cash flows through the sale of the assets.
2. How the performance of the portfolio is evaluated and reported to the Company's management;
3. The risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;

4. How managers of the business are compensated – e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected; and
5. The frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, consistent with the Company's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

Financial assets: Assessment whether contractual cash flows are solely payments of principal and interest For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Company considers:

1. contingent events that would change the amount or timing of cash flows;
2. terms that may adjust the contractual coupon rate, including variable interest rate features;
3. prepayment and extension features; and
4. terms that limit the Company's claim to cash flows from specified assets (e.g. non-recourse features).

A prepayment feature is consistent with the solely payments of principal and interest criterion if the prepayment amount substantially represents unpaid amounts of principal and interest on the principal amount outstanding, which may include reasonable additional compensation for early termination of the contract.

Additionally, for a financial asset acquired at a significant discount or premium to its contractual par amount, a feature that permits or requires prepayment at an amount that substantially represents the contractual par amount plus accrued (but unpaid) contractual interest (which may also include reasonable additional compensation for early termination) is treated as consistent with this criterion if the fair value of

FINANCIAL ASSETS: SUBSEQUENT MEASUREMENT AND GAINS AND LOSSES

Financial assets at FVTPL: These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

FINANCIAL ASSETS AT AMORTISED COST:

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain or loss on derecognition is recognised in profit or loss.

FINANCIAL LIABILITIES:

Classification, Subsequent measurement and gains and losses financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held for trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognised in profit or loss. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

III. DERECOGNITION

FINANCIAL ASSETS

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

FINANCIAL LIABILITIES

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Company also derecognises a financial liability when its terms are modified and the cash flows under the modified terms are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit.

IV. OFFSETTING

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

V. IMPAIRMENT

The Company recognises loss allowances for expected credit losses on financial assets measured at amortised cost.

At each reporting date, the Company assesses whether financial assets carried at amortised cost and debt securities at fair value through other comprehensive income (FVOCI) are credit impaired. A financial asset is 'credit impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Evidence that a financial asset is credit impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- the restructuring of a loan or advance by the Company on terms that the Company would not consider otherwise;
- it is probable that the borrower will enter bankruptcy or other financial reorganization; or

- the disappearance of an active market for a security because of financial difficulties.

The Company measures loss allowances at an amount equal to lifetime expected credit losses, except for the following, which are measured as 12 month expected credit losses:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition. Loss allowances for trade receivables are always measured at an amount equal to lifetime expected credit losses.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

In all cases, the maximum period considered when estimating expected credit losses is the maximum contractual period over which the Company is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information.

MEASUREMENT OF EXPECTED CREDIT LOSSES

Expected credit losses are a probability weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Company in accordance with the contract and the cash flows that the Company expects to receive).

PRESENTATION OF ALLOWANCE FOR EXPECTED CREDIT LOSSES IN THE BALANCE SHEET

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets.

WRITE-OFF

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the trade receivable does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.
